## LYCO CONTROLS

## THE EXPERTS IN INNOVATIVE FOOD PROCESSING & TECHNOLOGY

Trust Lyco's 50 years of industry-leading experience to bring you the best solutions to control stages and processes from one simple touch-screen.

### LYCO'S STATE OF THE ART CONTROLS SAVE TIME & MONEY BY AUTOMATING MULTIPLE ASPECTS OF THE PROCESS

Lyco utilizes a Touch Screen HMI which simplifies operation. Intuitive navigation, simplified startup sequence, and display of operational parameters improves productivity.

### FEATURES:

- Touch Screen HMI's for intuitive operation.
- Industry leading Allen-Bradley PLCs for ease of troubleshooting, parts availability, and long-term support.
- VFD's for better process control and energy savings.
- Alarms - View real time and historical alarms including temperature deviations, motor failures, and high/low levels.
- Convenient display of all major process parameters for fast and accurate quality checks.
- Pre-wired for reduced installation time and cost.
- Recipes - Create and save custom recipes for time and temperature control to achieve precise and repeatable results.
- Optional UL-approved panel construction.
- Rockwell Automation (Allen-Bradley) standard, Siemens available as option.
- Washdown rated sensors, cables, and electrical enclosures designed and tested for the environment.
- Remote Access connection allows for faster more efficient service.
