**RICE COOKER**

# **PRESSURE-FLOW® COOKER**

## **CHANGING THE WAY RICE IS PROCESSED!**

Lyco Manufacturing has 50 years of experience making blanchers, cookers, and coolers for rice, pasta, vegetables, and dry beans. We are the leaders in this field, having sold over 750 machines around the world. Our customers include 50 of the top 100 producers in North America, who know us as experts in the heating and cooling of food products.

**“PRESSURE-FLOW” IS THE RESULT OF 10 YEARS OF DEVELOPMENT WITH DIFFERENT FOOD PRODUCTS.**

### **50 in. x 13 ft. Size**

- Temperature 200°F - 250°F
- 21 ft. long x 9 ft. wide x 17 ft. high
- Weight 25,000 lbs.

## **INSIDE THE PRESSURE VESSEL**

During processing, the screen rests between 3:00 and 9:00 o'clock, containing the product between auger flights. During the cleaning process, the large gear at the end of the screen slowly rotates it 360 degrees, exposing it inside and out.

The auger rotates at the same time, while the above spray manifold cleans everything simultaneously. This innovation effectively reduces cleanup time from hours to just minutes.

### **COMPONENTS:**

- 50 in. x 13 ft. Diameter Auger
- Wedge Wire Screen
- Screen Gear for Cleaning
- Gentle water discharge

# HYDRO-FLOW® AGITATION

## THIS SYSTEM PRODUCES SUPERIOR PRODUCTS BECAUSE OF THE MACHINE DESIGN

Hydro-Flow® Agitation is Lyco's patented system for keeping product off the screen floor while it is being agitated and separated. On average, Rotary Drum Blanchers take 30 minutes to cook rice. A common problem with most auger systems is the overcooking of the outside and under cooking of the inside of the product. Hydro-Flow Agitation eliminates the issue of handling product in one heavy dense mass, between flights.

### BENEFITS:

- Cooks rice in 6-8 minutes
- 67-72% moisture
- Up to 10% yield improvement
- Reduced kernel damage
- Higher quality
- Less BOD, COD, TKN
- Major reduction in water usage
- Major reduction in waste
- Use less energy
- Space saving

THE **EXPERTS** IN INNOVATIVE  
FOOD PROCESSING MACHINERY

## TRUST IN LYCO'S 50 YEARS OF EXPERIENCE

50 of the Top 100 North American food companies that feed the world trust and rely on Lyco Food Processing Machinery.

Our innovations in the Heating/Cooling and Liquid-Solid Separation machinery have made us a global leader and an expert in the food processing industry.

Our extensive equipment offerings include:

- Blanchers/Cookers/Coolers
- Pressure Cookers
- Wastewater/Liquid-Solid Separation
- Peelers/Washers/Scrubbers
- Green Bean Equipment
- After Market Services
